UC-08.02 - Add Freelancer Skill

Freelancer
:ProfileView
:ProfileRoute
:ProfileController
:ProfileService
:ProfileRepo
:PrismaService
Database
1. Open Add Freelancer Skill
2. POST /profiles/:id/skills
3. addSkill(id, currentUserId, body)
ref
3.1 Verify jwt
alt
[no Bearer token OR verification fails OR sessionId missing OR session is null]
3.1.1.1. 401 Unauthorized
3.1.1.2. Display authentication error
[JWT and session valid; user is banned OR deleted]
3.1.2.1. 403 Forbidden
3.1.2.2. Display forbidden message
[JWT and session valid; user is active]
3.1.3.1. AuthGuard attaches JWT payload to request; continue
ref
3.2 PermissionGuard: require roleId and permission for HTTP method/path
opt
[PermissionGuard rejects role or permission; exits]
3.2.1. 403 Forbidden
3.2.2. Display permission error
4. addSkill(id, currentUserId, body)
5. findFreelancerProfileById(profileId)
6. profile.findFirst(id); if absent, findFirst(userId)
7. Read active user profile, freelancerProfile and roles
8. Profile or null
9. Profile or null
10. Profile or null
11. Handle profile lookup result
opt
[profile is null OR user lacks FREELANCER role; throws and exits]
