UC-31.02 — Join New Role

Authenticated User
:AuthView
:AuthRoute
:AuthController
:AuthService
:AuthRepository
:PrismaService
Database
1. Choose new CLIENT or FREELANCER role; Join
2. POST /auth/join-role (body)
3. joinRole(userId, sessionId, body)
ref
3.1 Verify jwt
break
[invalid token / session / role permission]
3.1.1. 401 / 403 error response
3.1.2. Display authentication / permission error
ref
3.2. PermissionGuard: roleHasPermission(roleId, method, path)
break
[request DTO / id validation fails]
3.3.1. 400 validation error
3.3.2. Display validation message
4. joinRole(userId, sessionId, body)
ref
AuthRepository.joinRole executes the following database operations in one Prisma interactive transaction; early missing-role / already-assigned result has no writes
5. joinRole: find target role
6. transaction.role.findFirst(name: body.role; deletedAt null)
7. SELECT active target role
8. Role or null
9. Role or null
10. Role or null
break
[target role missing: repository returns null]
11.1. 404 RoleNotFoundException
11.2. Propagate HTTP error
11.3. Return error response
11.4. Display error message
12. joinRole: check existing assignment
13. transaction.userRole.findUnique(userId_roleId)
14. SELECT user role assignment
15. Existing assignment or null
16. Existing assignment or null
17. Existing assignment or null
break
[assignment exists: repository returns already-assigned]
18.1. 409 RoleAlreadyAssignedException
18.2. Propagate HTTP error
18.3. Return error response
18.4. Display error message
19. joinRole: ensure profile
20. transaction.profile.upsert(userId; create if absent)
21. UPSERT Profile; return profile id
22. Profile id
23. Profile id
24. Profile id
alt
[body.role == FREELANCER]
25. joinRole: ensure freelancer profile
26. transaction.freelancerProfile.upsert(profileId; create if absent)
27. UPSERT FreelancerProfile
28. Freelancer profile
29. Freelancer profile
30. Freelancer profile
[else: body.role == CLIENT]
31. joinRole: ensure client profile
32. transaction.clientProfile.upsert(profileId; create if absent)
33. UPSERT ClientProfile
34. Client profile
35. Client profile
36. Client profile
37. joinRole: assign and activate new role
38. transaction.userRole.updateMany(primary -> false); transaction.userRole.create(isPrimary true)
39. CLEAR primary role; INSERT new primary UserRole; COMMIT transaction
40. { status: joined, role }
41. { status: joined, role }
42. { status: joined, role }
ref
If Prisma P2002 occurs anywhere in joinRole: rollback transaction; AuthService maps the unique constraint error to 409 RoleAlreadyAssignedException
ref
TokenService.signAccessToken({ userId, roleId: result.role.id, roleName: result.role.name, sessionId }): sign JWT for the existing session
43. { accessToken }
44. Return role response DTO
45. 201 Created: { accessToken } (NestJS response)
ref
Next.js /api/auth proxy sets accessToken cookie and returns { roleName: body.role }; on initial backend 401, refresh tokens and retry once if refresh succeeds
46. Use new role and navigate to its workspace
